Flatsome faq, Flatsome theme support, Flatsome template.

Possibility to switch between Day / Night Mode +900 custom icons. According to the Tielabs team, it was paradise template Under development and update for almost a year! Is Paradise Template Worth Buying? Sticky Navigation Menu Supports creating custom categories (with custom logo, colors, and backgrounds) Sticky Sidebar The template supports the feature (Ajax Live Search) More than 45 different background patterns, in more than 12 different ways. Social Widgets - To encourage visitors to follow your accounts on various social media platforms. The theme is also optimized with full support for the Yoast SEO and Rank Math plugins which are popular in the WordPress community, so you can configure your content to get more traffic from search engines. Ease of "Select and Share" content This feature allows users to choose a specific part of the content to share easily by selecting the part to share and the template will automatically display a popup screen containing the sharing options that you have selected. You can launch your site in no time by using one of the ready-made templates that come with a paradise template with the click of a button. 3 main reasons to choose Jannah's Paradise Template 1- A template developed by a team with extensive experience such as Tielabs which is the team responsible for developing the best-selling news template of all time Sahifa. Main Features of Jannah's Paradise Template Jannah template provides many features and characteristics that it is difficult to mention them all in one article. Snapchat and TikTok widgets, Sticky Videos Displays videos within a fixed popup screen. Creating video playlists is very easy and is done in the backend of Jannah template. This is what the Jannah template offers you via a widget to easily display photos from your Instagram account in the sidebar or invoice. Jannah's Paradise Template Price Template is available for purchase Themeforest Template price: \$60 Rating: 4.83/5 Number of purchases: 12,593 times Technical Support: Free for 6 months Template preview link Although these features are already quite a lot, they are not even close to the full set of advantages that you get when you buy a paradise template. Post List Widgets - Displays the most recent or most viewed content, trending articles and more.. So we will quickly learn about the most prominent features that you find in one of the most famous WordPress newsletter templates for blogs and electronic magazines. Easily import demo content Jannah template comes with more than 20 ready-made templates (demo) for various fields, which you can choose any of them directly with the click of a button. Flexible and responsive template Jannah has a fully responsive design that adapts to all modern mobile devices, and all different screen sizes. Send web notifications Web notifications feature allows users to interact first with updates on your site. Widget for displaying the weather A great and unique feature in the Jannah template is to display the weather in the sidebar of your site or in the header through a dynamic widget, just like the one used in smart mobile phones. Where the user can view the weather during the day or week after adjusting the geographical location. Multiple template pages for articles. It is a quick and easy to use plugin, you can manage everything from the control panel on your site, and the plugin settings are set in very simple steps. SEO Optimizer Paradise mold possesses the necessary characteristics when it comes to Search engine optimization With Schema data support for articles and reviews, article excerpts are displayed in search results. Jannah template was developed by team Tielabs in 2018. Accelerated Mobile Version (AMP) Fully compatible with Accelerated Mobile Pages (AMP) so your site is optimized for mobile devices and loads more quickly. In addition to the most important feature for users in the Arab region, it is the strong support for Arabic and other RTL languages. With Jannah template you can easily choose from 3 different types of widgets such as: Social Counter Widget - Displays the number of followers on social media accounts such as Facebook, Twitter, etc. Easily you can display advertising banners with affiliate links, or put Google AdSense ad codes to be displayed in the places you specify precisely. Multiple header and footer designs for you to choose from, varying in style, shape, colors, and backgrounds to make sure you get what fits your vision. - Also, the multiplicity of features and characteristics may be confusing at first, or too much to create a simple blog or website. Modern Blogger Template Design Jannah offers a new concept of WordPress themes for e-magazines and modern blogs, with a powerful design, multiple options, and integration with the most popular WordPress plugins to achieve maximum flexibility. Jannah template gives you this wonderful feature without the need to use any add-ons or subscribe with an external service provider. Disadvantages of Jannah's Paradise Template - Perhaps the most prominent disadvantages of Jannah template is the multiplicity of features and functions included with the template, which may slow down your website a bit. In fact, once you start using the Jannah template, you will never want to change it because it gives you everything you need to start your dream website. Multiple font options With more than 800 Google fonts and 150 FontFace.me fonts included in the Jannah template you will surely be able to find what works for you. The template fully supports the Arabic language, and it is a powerful alternative to the template Newspaper Famous news. In the end, we hope that this review will help you make the right decision if you are considering Get started with Jannah news template Email marketing email marketing Email marketing is one of the most important marketing tools at the moment, Paradise template has strong integration with many email marketing software such as MailChimp, Feedburner, etc. Plus the SEO Rich Snippet feature for add-ons like comments, ratings, and images that appear in search results. - Perhaps being a paid template is one of the drawbacks for some, which increases costs, especially when starting a new site. BuddyPress functionality support for adding social media features. The template is completely ready to display AdSense ads. More than 12,500 purchases have been made on ThemeForest. You can also easily template from Get the email of your visitors in different and attractive ways. A custom add-on to easily replace your old website template with a paradise template. The ability to display Corona virus statistics directly on your site. However, you will learn all about the template, its features and how to use it while working, as Jannah template is very popular and has a really large user base. Integration with the bbPress plugin You can easily set up discussion forums within your site by integrating with bbPress, the most popular WordPress plugin for creating and managing social forums. Quick transition between content parts Adding highlights to your content so that users can jump to a point in longer content is a great way to help provide a better and more fluid user experience. Add Taqyeem to make reviews. In case you are creating a blog or a news site, the documentation and technical support that comes with the template will greatly help your journey. With a built-in cache to reduce database queries, it is compatible with the popular WP Super Cache plugin for WordPress. Jannah's Paradise is one of the most popular WordPress themes for creating blogs, news sites, and e-magazines. 2- Modern and advanced features such as full support for using and sharing GIF images, the built-in web notification feature, and others.. Ease of displaying ads Jannah template provides many options for displaying ads in an attractive way so that you can monetize your site. The design, fonts, colors, buttons, sidebar, widgets and more are all customizable from within the control panel. Built-in page builder Jannah comes with a built-in drag and drop page builder to help you design your site without having to use any programming languages at all. Let's find out the answers to these questions and more together in this detailed review of Jannah's Paradise template. template It is their primary theme and it was one of the most selling templates on ThemeForest. Is it a good alternative to a theme like Newspaper and other WordPress themes from rated magazines and blogs? But the popularity of the Sahifa template declined when better and more advanced alternatives were developed such as Newspaper Template. All you have to do is replace the content and images with ease and customize it to suit the content of your site or your brand. Also with smart menu features that adapt to the user's device to ensure the best possible experience while browsing your content. GIF file support GIF files play an important role in the spread of viral content even more today. Through the mega lists that work with Ajax technology, you can control the work of the lists within your site with a set of distinctive options that you will definitely like. Video playlists Showing videos to users is a great way to reduce bounce rate and keep visitors on your site longer. Where he was Sahifa . Full control over template properties Jannah template provides you with complete control over the characteristics and functions of your site through a powerful control panel that allows you to customize and modify everything so that you can configure your site easily. So the developer team at Tielabs launched Jannah's theme as an alternative to the theme competition that took Sahifa's theme out of the top selling theme. The team responsible for developing the Jannah theme, Tielabs, is one of the most famous developers of Arabic WordPress themes for a long time. Get lifetime template updates. Slider menus with "Ajax Mega Menus" technology Flexible navigation menus are essential for a large and content-packed site, as the menu should attract users to navigate the site and browse other parts. Some other features of Jannah's paradise Gutenberg default editor support. Animated weather widgets. There is nothing to update or install, everything is listed in the theme settings panel. Jannah template is fully compatible with the popular WordPress plugin WPML To create a multilingual website. The theme has an excellent rating of 4.83/5. All work is done from within your site's dashboard, and you can preview your design live in real time. The images on your site are loaded successively when the user scrolls down the page, not when the page is loaded from the beginning. You can specify the page layout (full width or inside a box) with control over the width of the sidebar, the content pane, and other design controls. +15 Slider to display articles or photos in different ways. 3- The template is fast, flexible and responsive to mobile phone screens and their modern features, in addition to the AMP version for a website that is faster to browse on a mobile phone. With Jannah template you will be able to view files of this type easily, without having to use any external plugins, custom widgets Sometimes you may need to customize some widgets to suit the nature or appearance of your site, or to perform specific functions. Load images when needed (Lazy Load) The template comes with this feature built in without the need to use any external plugins to get faster load times for your website pages. Instagram Widget If you run a fashion or fashion blog or any field that relies heavily on images, then displaying part of the Instagram posts on your site will be a necessary and distinctive thing. Speed and high performance Jannah template has achieved high performance rates with many improvements that give you faster page loading speeds, and increase your site's overall performance rates. Plus HTML SEO support so search engines can pick up ranking signals from specific HTML elements on your site. Customizability The template gives you the necessary flexibility in designing and choosing how all parts of your site look the way you want through a powerful control panel for all the functions of the template. Ecommerce with WooCommerce Plugins Jannah is not just about creating blogs or news websites, the template is designed to integrate tightly with popular e-commerce plugins and all WooCommerce plugins so that you can take advantage of all the necessary e-store functionality. But you can overcome this drawback by using Good addition to caching, and activate only the functions or features you need in the template. ready to translate The template is ready to display content translated into several languages easily, and the template itself can be translated through an embedded translation panel. Compatible with the most popular Cryptocurrency add-ons.

Dec 07, 2021 - Like most other fake website templates in this list, this one also uses the Elementor page builder for front-end customizations. This template uses Google Fonts; hence you get a wide range of properly optimized fonts collection that you can use for your blog to improve the reading experience. Info / Download Demo. Flatsome Fix: increase the priority for the "woocommerce locate template" filter; Tweak: add "btn-color-primary" CSS class to the buttons under the WoodMart theme; 2.14. 01/14/2021; Modify the plugin's name from WooCommerce Multi-Step Checkout to Multi-Step Checkout for WooCommerce; 2.13. 12/07/2020; Add the "woocommerce checkout logged in ...
